**1987-95 YJ                   KIT # 83095**  
**1987-95 YJ                   KIT # 83096**  
**1997-06 TJ/TJL           KIT # 83200**  
**1997-06 TJ/TJL           KIT # 83201**

**⚠ WARNING**  
Read and understand all instructions, warnings, cautions, and notes in this sheet and in your owner's manual before you install this kit.

**Before starting installation**

**⚠ NOTE**  
Parts provided in this kit are prefaced by the word **kit** and appear in **bold** font.

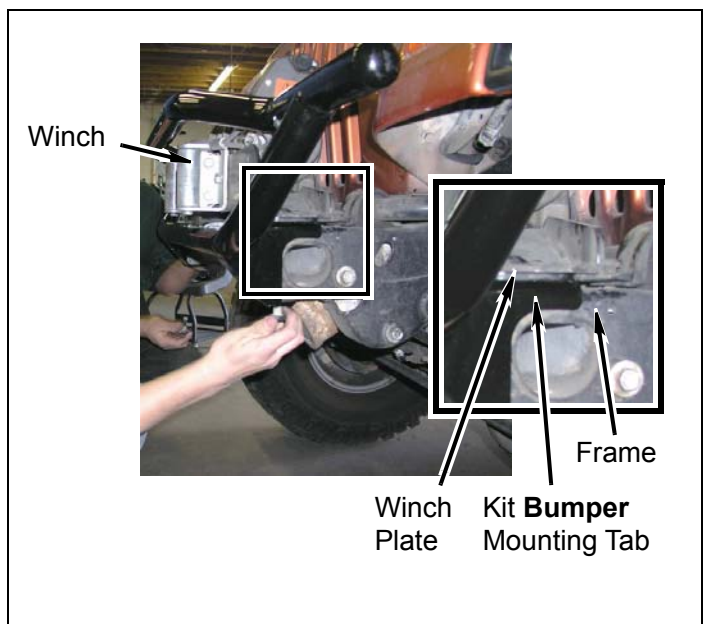

1. Read all warnings and instructions completely and carefully before you begin.
2. Check to make sure the kit is complete (refer to the Kit Parts List at the end of this document).
3. Only install this kit on the vehicle for which it is intended. If anytime during the installation you encounter something different from what is outlined in the instructions, call technical support at: (928) 636-3100.

# Install kit

1. Stock front bumper.
  - a. Remove four torx bolts and tow hooks.
  - b. Remove two torx bolts from underside of bumper.
  - c. Remove stock bumper from vehicle.
2. Winch. (Skip this step if not installing a winch)

**NOTE**  
It is not possible to install winch with kit **bumper** installed.

- a. Set winch plate and winch in place.
- b. While lifting front of winch plate, set kit **bumper** on frame under winch plate.

3. Front kit **bumper**.
  - a. Install kit **bumper** on frame using original fasteners.

**NOTE**  
If kit **bumper** mounting tabs fit tightly over frame, bend tabs with an adjustable wrench.

- b. If not installing the optional Multi-Light Mount (87011) on the kit **bumper**, plug the holes with the kit **plastic caps**.

# Accessories

The following accessory is also available:

**Kit # 87011:** Multi-Light Mount

**NOTE**

Four holes on the front of the kit **bumper** will accommodate a Hi-Lift jack, a Multi-Light Mount, or both.

Multi-Light Mount (Kit # 87011)
